A REEN SPRING HYDROPATHIC INSTI-ATUTE in Babimore County, 14 miles on the Susquehanna Kalroad, and 10 miles by the Reisters-town Turnplace from Balimore. This institution with be opened on the 12th of August, for the recep-tion of Patients and under the direction and charge of William Bods, M. D., late of Washington city, uptil of the selectrated Priesmitz, founder of the sys-tem.

upit of the celebrated Priesmitz, founder of the system.

The proprietors being convinced that an institution of this kind would be a bleeding to the sack and the invalids of our city and state, and those of our sister states, who would resort to this mode of cure have spared neither pains nor means to place this in situation on a foring with those of this country, after the plan of these in Germany. The house habern newly pointed and furnished with new furnition, and specially altered and arranged for comfort to the patients and for the utmost efficiency of the treatment. A new Bath-house has been added to the main house, containing all the necessary bath apparatus. A Douche house is building which will contain 4 douches 2 for leidies and 2 for gentlement which will have a fall of from 12 to 18 feet, and in volume from 14 to 23 taches in diameter.

There are four large aprings on the place at a temperature of 54? Parenheit, highly impregnated with carbonic gas in constant efferivenence. The water is remarkably light and all the springs are chaded by large trees. Walks lead from one to the ether, giving ample opportunity for walking. The

water is remarkably light and all the springs are shaded by large trees. Walks lead from one to the other, giving ample opportunity for walking. The place is known as one of the healthiest and most delightful in Maryland.

As Hydropathic Institutions are not places of amusement, but are only for the seek and invalid, every thing more readily may and will be done to promote their confact and health. Neither is the time of spising or cutering them confined to one season; but they are open at all reasons of the year. Experience having proved that the winter or cold seasons are fully as favorable to the progress of the cute, as the summer or milder seasons, particularly mad chronic effections. No inducements will be held out to the epicture, but the blee will be supplied with wholesome and hurritions and abundant food to reasons as bakendown or abused constitution, to more than ordinary hes the All exciting drinks and spate are entirely forbit den, chocolate, milk and water, being the only dinks allowed.

Each patient must provide himself with a matters, a feather bad of about 12 lbs, a double blanket, but coarse hims sheets, 3 yards long and 13 wide, 4 long and 4 short towels, a mo ning gown, a pair sinds raubet shore; and it plut golde to rumbler. The price of Bardt, neducing the use of all the last apparatus, the Dordon's fee, and the attendance of the rathing servant's for each patient, is \$12 per work—when two or three persons cerupy the same room the charge to each will be \$510 per week.

THE UNDERSIGNED having examined a set ii. of Cockran's Maps of Sacred Geography, enhanted to their impection by Mr. Wm. Robert Murror, take pleasure in certifying that in their independent. turror, take pleasure in certifying that, in their dement, they cannot fail to be greatly useful to abbath Schoole, and highly interesting as well a-seful in families. They would therefore highly commend them to the inversible notice of #4 Sab-ith, Schoole, and other

Thursday and Sa urday.

Leave Stonington Monday, Wednesday and FgiTHE PLUMBE NATIONAL DAGUEERIAN

plication. They are confidently recomended as a valuable addition in the speedy cure of rheumatism, acute or chronic; in all nervous complaints, and as a positive remedy in cases of pain and weakness in the chest or back, pain in the side, in asthmatic affections and in weakness or oppression of the pulmonary or gans. In spinal complaints their effects are of the most decided character, and they have often been used with complete success. They are also of the greatest advantage in pains and weakness of the breast, and are highly reported for many of those complaints to which females are especially libration. As an effectual means for strengthening theystem when debifitied with disease and other cause, as a certain sid in constitutional weekness, as a preventive for colds, and in all affections of the cheat generally, the Galvanic Stengthening Plasters will be found of great and permanent advantage.

CAUTION. The celebrity and success of these articles have caused them to be counterfeited by unprivilepted persons. Dr. Christic cautions the public against sportous imitations. He has but on authorized agency in each city of the Union, where the genuine articles can be procured. The only agents for Washington are—

COLLETON BITTERS.

THESE Bitters are purely a regetable compound, and are offered to the public from principle of benevolence, under the fullest conviction that they will be found a safe and sovereign emedy for Dyspepsin. They have been triumhantly tested, not only by some of the most repectable families and physicians in the State of south Carolina, who have farnished ample testinony as to their decided excellence, but also by the proprietor, who, for ten years, suffered all the gloom accident to that stubborn and distressing disease. They possess the peculiar excellence, denied to most other Bitters, of not proving injurious by continued use. They contain not a single deleterious ingredient, and, as seen from the directions which accompany each bottle, may be given with entire safety to an infant in the month.

With pleasure, and for the benefit of mankind, I end you a certificate relative to the Colleton Bitters.

In the year 1839, when the cholera was in Charleston, S. C. I was compelled to send a servant to the city. On his return, he was suddenly attacked with most violent pain in his bowels, so much so as to cause apprehension that he would expire in a short time, if medical sid could not be procured. I immediately resorted to the Colleton Bitters, by giving a wine glass full at a dore. In the course of a very short time it acted as an emetic, and throwing him at the same time into a profuse perspiration. I then continued to give in in small doese, from two to three tea spoonsfull, which resulted in a happy re-
